

CYNTHIA MARSHALL

Faith-Forward Speaker

Classically Trained Flutist

Founder, Freedom After 40

Cynthia Marshall spent decades in corporate sales and financial services before a season of profound loss cracked open everything she thought she knew about purpose and provision. In the rubble she picked up her flute, opened her Bible, and started creating. The Scripture meditation album she recorded in a home studio while barely holding on reached 150 countries. Today she is a Digital Business Architect and founder of Freedom After 40, a faith-anchored platform helping women of faith uncover their gifts, clarify their calling, and build something real from it.
